Certified Ethical Hacker
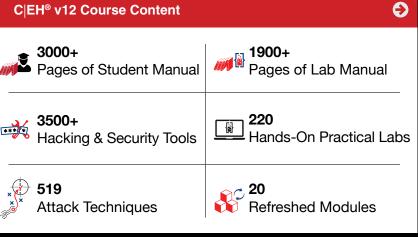

Enter the Hackerverse™
With the Certified Ethical Hacker® v12!

What is the C|EH® v12? ➡

The Certified Ethical Hacker (C|EH®) is an industry renowned, globally recognized credential. In its 12th version, the C|EH® offers the most comprehensive ethical hacking program with training, practice, certification, and competition all integrated into one course that can change your cybersecurity career trajectory. This one-of-a-kind certification provides extensive hands-on training, labs, assessment, mock engagement (practice), and global hacking competitions to ensure that learners are at the top of their game with the most in-demand skills.

Our exclusive learning framework, Learn | Certify | Engage | Compete, prepares students for the certification exam and the industry's most robust, in-depth, hands-on lab and practice range experience of any cybersecurity program available.
